DVDBUILDER SOFTWARE DEVELOPMENT KIT

ENTERPRISE END USER LICENSE AGREEMENT

IMPORTANT—READ CAREFULLY: This End-User License Agreement ("EULA") is a legal agreement between you (either an individual person or a single legal entity, who will be referred to in this EULA as "You") and Primo Software for the DVDBuilder software that accompanies this EULA, including any associated media, printed materials and electronic documentation (the "SOFTWARE").

BY INSTALLING, COPYING, DOWNLOADING, ACCESSING OR OTHERWISE USING THE SOFTWARE, YOU AGREE TO BE BOUND BY THE TERMS OF THIS EULA. If You do not agree, do not install, access or use the SOFTWARE.

The SOFTWARE is protected by copyright and other intellectual property laws and treaties. Primo Software or its suppliers own the title, copyright, and other intellectual property rights in the SOFTWARE. Primo Software reserves all rights not expressly granted to You in this EULA. The SOFTWARE is licensed, not sold.

1. **DEFINITIONS** When capitalized in this Agreement, the following terms have the meanings assigned to them by this Section 1. All other initially capitalized terms have the meanings assigned to them elsewhere in this Agreement.
 - 1.1 "Affiliate" means, with respect to any legally recognizable entity, any other such entity Controlling, Controlled by, or under common Control with such entity. "Control," as used herein, means the possession of the power to direct or cause the direction of the management and policies of a legally recognizable entity, through the ownership of voting shares or by contract. Where such entity is a partnership, limited liability company, corporation, or similar entity and has partners, members, or shareholders with equal ownership interests or equal control interests, by contract or otherwise, then each such partner, member, or shareholder will be deemed to possess, directly or indirectly, the power to direct or cause the direction of the management and policies of that entity.
 - 1.2 "Confidential Information" means:(i) any pre-release software in object code form and any source code other than Sample Source; (ii) any trade secrets and/or other proprietary non-public information not generally known relating to either party's product plans, designs, costs, prices and product names, software, finances, marketing plans, technical support requests, business opportunities, research, development or know-how, regardless of how obtained by the receiving party; and (iii) the terms and conditions of this Agreement. Notwithstanding the foregoing, "Confidential Information" will not include information that: (A) is or becomes generally known or available by publication, commercial use or otherwise through no fault of the receiving party; (B) is generally known and has been reduced to tangible form by the receiving party prior to the time of disclosure and is not subject to restriction; (C) is independently developed by the receiving party without the use of the other party's Confidential Information; (D) is lawfully obtained from a third party that has the right to make such disclosure; (E) is made generally available by the disclosing party without restriction on disclosure; or (F) is released in writing by the disclosing party for publication by the receiving party.

- 1.3 “Digital Device” means any standalone or removable CD-R or CD-RW or DVD-R or DVD-RW or DVD+R or DVD+RW or DVD-RAM, HD-DVD-R, HD-DVD-RW, BD-R, BD-RE or other similar media device that can store digital audio, digital video and other computer data.
- 1.4 “Distribute” means to use, reproduce, license, lease, sell, offer to sell or otherwise disseminate through any means now existing or later developed.
- 1.5 “Independent Contractor” means a third party temporary worker, company or other entity which is under written agreement with You or Your organization to develop, complete, or assist with the development or completion of research and development activities under the license rights granted under this Agreement, where such written agreement meets the terms and conditions of this Agreement; provided, however, that “Independent Contractor” specifically excludes any entity that is a vendor of CD, DVD, HD-DVD and/or BD (Blu-ray Disc) Recording technologies. The Distribution of a Software Application or selling services which involve CD, DVD, HD-DVD and/or BD (Blu-ray Disc) recording technologies do not make an entity a “vendor of CD, DVD, HD-DVD and/or BD (Blu-ray Disc) recording technologies.”
- 1.6 “Software Application” means application(s) or utilities created using the SOFTWARE to enable CD, DVD, HD-DVD and/or BD (Blu-ray Disc) recording, decoding, reading, and/or playing, each of which are not designed for or intended to be used as a replacement of the SOFTWARE for use by third parties to develop other software products or programs (e.g., software development tools).
- 1.7 “Redistributable Components” means the Dynamic Linked Library (DLL) files located in the “lib” folder, as installed by the SOFTWARE including such Updates thereof as may be provided pursuant to Section 3.
- 1.8 “Sample Source” means any sample, human-readable code located in the “Samples” folder of, as installed by, the SOFTWARE, including any Updates thereof provided by Primo Software Corp pursuant to Section 3.
- 1.9 “Updates” means all subsequent public releases of SOFTWARE (including public beta releases), including public maintenance releases, error corrections, upgrades, enhancements, additions, improvements, extensions, modifications and successor versions.

2. LICENSE GRANT AND RESTRICTIONS

This Section of the EULA describes Your general rights to install and use the SOFTWARE. The license rights described in this Section are subject to all other terms and conditions of this EULA.

2.1 License Grant

- a) The SOFTWARE is licensed per individual developer. You may make copies on more than one computer, as long as the use of the SOFTWARE is by the same developer. If you have purchased a "multi-pack" license, you may use a copy of the SOFTWARE identified in the multi-pack on the number of computers associated with the multi-pack (e.g. a five user multi-pack allows you to use the SOFTWARE on up to five computers concurrently or by five different developers, the ten user multi-pack on up to ten computers concurrently or by ten different developers). The SOFTWARE is in "use" on a computer when it is

loaded into temporary memory (i.e. RAM) or installed into permanent memory (e.g. hard disk, CD-ROM, or other storage device) of that computer. However, installation on a network server for the sole purpose of internal distribution to one or more other computer(s) shall not constitute "use" for which a separate license is required, provided you have a separate license for each computer to which the SOFTWARE is distributed.

- b) Electronic Documents. Solely with respect to any electronic documents included with the SOFTWARE, You may make a reasonable number of copies (either hardcopy or electronic form), provided that (a) such copies shall only be used for internal purposes and solely in support of Your authorized use of the SOFTWARE, and (b) are not published or distributed to any third party.
- c) Sample Source. You may copy, modify, and create derivative works of the sample source code located in the "\samples" and "\include" directories installed by the SOFTWARE, including any Updates thereof that may be provided ("Sample Source") to develop Your Application. You may reproduce and distribute, only in object code form, versions of the Sample Source including any modifications or derivative works thereof, as part of the distribution of Your Application.
- d) Redistributable Code. You may reproduce and distribute, only in object code form, the portions of the SOFTWARE located in the "\lib" directory installed by the SOFTWARE, including any Updates thereof that may be provided ("Redistributable Components") as part of Your Application.

2.2 License Restrictions and Requirements.

- (a) *Non-Malicious Intent:* Your Applications shall not be specifically designed to degrade, overload, or stress any component of the Materials.
- (b) *Redistributable Components:* You may distribute the Redistributable Components and Sample Source as described above, provided that:
 - i. You distribute the Redistributable Components and Sample Source only in conjunction with, and as a part of, Your Application;
 - ii. You do not use PRIMO SOFTWARE's name, logo or trademarks to market or promote any Licensed Application, except as permitted by a separate agreement between the parties.
 - iii. You include in the "About Box" of Your Application (or if there is no About Box, in another location that end users can easily discover and read) a copyright notice which states the following:

"Portions of this software utilize DVDBuilder(tm) Technology.

(c) 2003 - 2010 Primo Software, Corp.

<http://www.primosoftware.com>"

- iv. You do not use the Redistributable Components or any other part of the Materials to create an Application that substantially duplicates the functionality of any version of the Materials.
- v. Your Application is provided to Your end users pursuant to an end user license agreement which contains terms that are consistent with the terms and conditions

of this EULA and shall be sufficient to protect Primo Software's intellectual property rights in the Redistributable Components

- vi. You may not modify any portion of the Redistributable Components; and
 - vii. You agree to indemnify, hold harmless, and defend Primo Software from and against any claims or lawsuits, including attorneys' fees, that arise or result from the use or distribution of Your Application.
- (c) *No Further Redistribution:* You may not Distribute or have Distributed the Materials or any component thereof, other than as expressly permitted in this Section 2.
- (d) *No Reverse Engineering, Decompilation, and Disassembly:* You may not reverse engineer, decompile, disassemble or otherwise seek to discover the source code, components of the Materials (other than the Sample Source), except and only to the extent that such activity is expressly permitted by applicable law notwithstanding this limitation.
- (e) *Unauthorized Use:* THE SOFTWARE IS NOT DESIGNED, INTENDED, OR AUTHORIZED FOR USE IN ANY TYPE OF SYSTEM OR APPLICATION IN WHICH THE FAILURE OF THE MATERIALS COULD CREATE A SITUATION WHERE PERSONAL INJURY OR DEATH MAY OCCUR (E.G MEDICAL SYSTEMS, LIFE SUSTAINING OR LIFE SAVING SYSTEMS). Should You purchase or use the SOFTWARE for any such unintended or unauthorized use, You shall indemnify and hold Primo Software and its officers, subsidiaries and affiliates harmless against all claims, costs, damages, and expenses, and reasonable attorney fees arising out of, directly or indirectly, any claim of product liability, personal injury or death associated with such unintended or unauthorized use, even if such claim alleges that Intel was negligent regarding the design or manufacture of the part.
- (f) *Additional Licenses:* Your use or implementation of the SOFTWARE may require additional licenses, including but not limited to copyright and patent licenses from various entities. Should any such additional copyright, patent or other licenses be required, You agree to obtain any such licenses at Your own expense. You are solely responsible for obtaining any such licenses and the copyright licenses granted in herein are conditioned on You obtaining such additional licenses.

Please contact Primo Software for the applicable licensing terms for all other uses and/or distribution of the Redistributable Components.

2.3 Limited Commercial Use.

Your Software Application(s) may be installed and used ONLY (i) on computers located at premises owned or leased by You or Your organization and its Affiliates; and (ii) on computers located at premises owned or leased by Your organization's Independent Contractors.

2.4 Ownership; Reservation of Rights. PRIMO SOFTWARE retains all right, title and interest in and to the Materials, and any and all components thereof. Subject to the license grant in Section 2.1 (including the restrictions of Section 2.2 and Section 2.3) and PRIMO SOFTWARE's ownership of the underlying Sample Source, You own all right, title and interest in and to any modifications or derivative works of the Sample Source created by or for You other than by PRIMO SOFTWARE. This Agreement shall not be construed in any manner as transferring any rights of ownership or license to the Materials, and any and all components thereof, and/or to the features or information therein, except as expressly licensed in this Section 2. All rights not expressly granted by PRIMO SOFTWARE are

reserved. Under no circumstances will the license grants set forth in this Section 2 be construed as granting, by implication, estoppel or otherwise, a license to any PRIMO SOFTWARE technology or under any PRIMO SOFTWARE intellectual property other than the Materials, the Redistributable Components and the Sample Source.

3. UPGRADES AND TECHNICAL SUPPORT

- 3.1. Upgrades and Successor Versions. Primo Software may, at its option, make upgrades and/or successor versions of the SOFTWARE, available by general posting on a Primo Software website(s). Primo Software may make non-beta versions of such upgrades and/or successor versions of the SOFTWARE ("Upgrades") available pursuant to the terms of this Agreement or, in Primo Software's sole discretion, Primo Software may condition the release of such Upgrades to You upon Your acceptance of another EULA or other execution of a separate agreement. You agree that all new versions of Your Application(s) released more than ninety (90) days after Primo Software's release of an Upgrade will incorporate the Upgrade.
- 3.2. Support Services. Primo Software is not obligated to provide technical or other support ("Support Services") for the SOFTWARE unless you purchased additional support services - "Software Assurance".
